Indian Futures' achievements to date

Since its registration with the Charity Commission in June 2017, Indian Futures has funded and run successfully the following projects:

- 1) IT Community Centres:** we've open 3 IT centres, 2 in Vedanthangal and 1 in Kanjanur. We've provided 6 laptops/desktop computers to each centre, internet connection, IT teachers training and teachers' salaries. We will continue to fund the salaries and internet bill of the three centres. We also aim to open more centres in the future.

2) Future Communities: linked to the above project, we've carried out two Skype exchanges between students in Tamil Nadu and Europe, one with La Llacuna Primary School in Barcelona and the second one, still ongoing, with St Luke's Primary School in Brighton. The project is a space for students from both educational centres to explore and share different areas of their day-to-day lives, such as their schools, homes, festivities and geography.

- 3) Vedanthangal Nursery School and Kanjanur Nursery and Primary:** we've provided educational material to both centres. We've also refurbished and painted Vedanthangal's Nursery.
